

## **Covid-19 – Specific Measures**

**Released on April 2nd 2020**

Pearl Partner business center places great importance on the safety and comfort of its customers. Current sanitary situation has led Pearl Partner to implement many specific measures related to the cleaning and disinfection of its premises:

- Daily disinfection of premises (anti-viral product DIOXIVIR Excel) on more than 300 points of contact
- Daily air disinfection by bactericidal-virucidal aerosol Standard 14476
- Gates kept open in common areas
- De-densification of living spaces, kitchen area, meeting rooms ...

In addition, the following sanitary equipment are made available:

- Contactless hydroalcoholic gel dispensers
- Bottles of hydroalcoholic gel
- Surgical masks
- Surgical gloves
- Disinfectant wipes
- Forehead thermometer
- Sheet-by-sheet hand towels
- Contactless soap dispensers

The call for individual responsibility to ensure compliance with barrier gestures and social distancing is also recalled through various signs shown in several places in working and living areas
